The best way to get to know Serbia is to get to know its cuisine.

The language of a national cuisine, like the languages of color and music, is easily adopted and stays long in memory. We will tell you a fascinating story about a beautiful country in the very heart of Balkan Peninsula. For many centuries, Serbia absorbed the traditions of strict Muslim East and lush Austro-Hungarian West, while never losing its Slavic identity. We are ready to share with you the hospitality, generosity, and centuries-old traditions of this amazing country and Serbian national cuisine will serve only as an excuse to invite you to be our guests!
